3. Co-working with Intel and AMI for fix BIOS issues.
4. Following up spec to implement features.
5. Writing user guides.
6. Reply questions from customers and other departments.

Personal side-projects

GraphQL demo project

* Use open GraphQL api to build an demo project.

<https://github.com/HsiehMinChien/graphql-demo-project/>

<https://graphql-demo-project.mediocre0528.now.sh/>

Mobile website demo with onsenui

* Use Onsen UI lib and open pokemon api to build demo project.

<https://github.com/HsiehMinChien/mobile-website-demo-with-onsenui>

<https://mobile-website-demo-with-onsenui.mediocre0528.now.sh/>

GraphQL Server side demo project with nest.js

* Use Nest.js to build an GraphQL server side.

<https://github.com/HsiehMinChien/nestjs-with-graphql>

<https://nestjs-demo-project.herokuapp.com/graphql/>

Skills

Front-end development

- | | | |
|---------------------|---------------------|---------------|
| ○ React.js | ○ Stylus | ○ Nightwatch |
| ○ Next.js | ○ HTML | ○ Jest |
| ○ GraphQL | ○ CSS | ○ Nest.js |
| ○ Apollo (Client) | ○ Javascript | ○ Storybook |
| ○ Redux | ○ Typescript | ○ git |
| ○ styled-components | ○ Bootstrap 4 | ○ source tree |
| ○ SASS | ○ Ant design (antd) | |
